

THE BOARD OF DIRECTORS' PROPOSAL ON RESOLUTION ON AN AUTHORIZATION FOR THE BOARD OF DIRECTORS TO INCREASE THE SHARE CAPITAL

The board of directors proposes that the general meeting resolves on an authorization for the board of directors to – for the period up to the next annual general meeting and at one or more occasions – resolve upon issuance of new shares, warrants and/or convertible debentures. Payment may be made in cash, in kind, through set-off of claims or otherwise be conditional. The company's share capital may by support of the authorization be increased by an amount corresponding to 20 per cent of the share capital and number of shares in the company as of on the date the board of directors make use of the authorization. Deviation from the shareholders' preferential rights shall be allowed in situations where a directed issue is deemed more appropriate for the company due to timing, commercial or similar reasons, and in order to enable acquisitions. The chairman of the board of directors, the managing director, or anyone authorized by the board of directors, shall have the right to make any minor adjustments required in order to register this resolution.

For a valid decision on the proposal on an authorization for the board of directors, as outlined above, requires that the proposal is supported by shareholders representing at least two-thirds (2/3) of the votes cast and the shares represented at the meeting.
